## BASIC-ABSTRACT:

NOVELTY - The statistical information and the image of the check transmitted from a merchant are stored in the database of a service provider. The payments of the authorized check is provided to the merchant by an automatic clearing house (ACH) system of the service provider. In case of returned check, for a guarantee' customer, the merchant is indemnified, based on specific terms and conditions.

USE - For managing payment of check for purchasing of goods or goods or services through Internet.

ADVANTAGE - Administrative errors and loss of contact information are avoided. Hence efficiency of management system is improved. Since magnetic ink character recognition (MICR) scrubbing is not needed cost is reduced.

DESCRIPTION OF DRAWING(S) - The figure shows an explanatory view of the online check management system.
